## Scope of the SETOFF project

**The Project aims** to improve the effectiveness of systems for preventing, preparing for and responding to disasters, with the primary aim being the preparedness and occupational safety of civil protection personnel and personnel from the public and private sectors with duties on Safety and Security for future crises, emergencies, national catastrophes.

## How

**An innovative e-training program** will be developed, based on a successfully tested and implemented simulation model coupled with state-of-the-art scientific knowledge and based on capability gaps as these will be identified from a comprehensive needs' analysis in the partner countries.

## To whom

**The program is addressed** to civil protection personnel from local and central governments, Private sector safety personnel and private sector security personnel.

## Why participate

**Participants** will have the opportunity to obtain a high quality online training, at their own time and place on how to respond to disaster situations.
